

MSME unit information format for calling design experts inquiry

Project Title : **Environment Monitoring System**

MSME Unit Name : **M/s Sparr Electronics Ltd**

Contact Person : **Mr Mohandas U**

Address : **43, YMS Complex, HMT Main Road, Mathikere, Bangalore 560054**

Ph. No : **+91 80 23602836 / 23606308**

E-mail : **info@sparrl.com**

Website : **www.sparrl.com**

Industry Type & Products : **Electronic Industry**

Project Brief: Design & Manufacturer of Data Communication devices, Computer Peripherals and Embedded Systems.

The purpose of the product is to monitor the Temperature, Humidity and any other critical parameters of a IT Data Centers, Server Room, Network Rack Rooms, UPS Rooms, Voice Communication Rooms having EPABX, Medical Applications & any other rooms which are Air conditioned and requires to maintain the operating Temperature, to ensure that they do not fail due to increased operating temperature. This can also help in maintaining the optimum temperature for saving Energy in these rooms by avoiding excess cooling. The device should also help in recording the Environmental condition for reference, Compliance and analysis

Designer Preferences

(Own designer agrees to be empanelled to NID)
